What is the shadowing technique?

This is a technique used to improve your English speaking and pronunciation. It's a fantastic way to improve if you don't have anyone to practise with or give you feedback.

To use the shadowing technique, listen closely to a video or audio recording and try to repeat what you hear at the same time. If you find this too difficult, try pausing the recording and repeating afterwards.

You **must** pay attention to the sounds, stress, rhythm and intonation patterns of the language – NOT just the words.

- **significantly:** in a sufficiently great or important way that is worthy of attention.
- **literary:** concerning the writing, study, or content of literature.
- **scholarship:** academic study or achievement.

8. The Quantum Experiment

Dr. Olivia Kim was at the **forefront** of **quantum** computing research. Her latest experiment aimed to **demonstrate** quantum entanglement over **unprecedented** distances. The **setup** was **intricate**, requiring **precise calibration** of **lasers** and mirrors.

After months of preparation, the experiment was finally **conducted**. The results were **astonishing**, not only confirming the **theory**, but also opening new **avenues** for quantum communication. Dr. Kim's work **challenged** existing **paradigms**, earning her **accolades** in the scientific community and **paving the way** for future **innovations**.

- **to pave the way:** to make it easier (for something to happen or someone to do something) by doing it first.
- **innovation:** a new idea or method.

9. The Linguist's Discovery

Professor Laura Walker, a **distinguished** linguist, **ventured** into a **remote** Amazonian village to **document** a nearly **extinct** tribal language. Her arrival was met with **enthusiasm** from the locals, keen to **preserve** their linguistic **heritage**.

Through **extensive** research, Professor Walker **uncovered** a **sophisticated** linguistic system, deeply **entwined** with the **tribe's** ecological **wisdom**. Her **findings**, published in an academic paper, **highlighted** the **critical** relationship between linguistic **diversity**, cultural **preservation**, and **ecological** understanding.

Walker's work also **spotlighted** the urgent need to **safeguard endangered** languages as **repositories** of **invaluable** knowledge and environmental **stewardship**, **catalysing** global **conservation** efforts.

Make Sentences

Write the words which are new for you. Then, create short sentences. You can then type them into ChatGPT and ask it if the sentences are correct.

Here's a sample below for you.

You
Can you check if this sentence is correct?

The watched the film with many enthusiasm!

ChatGPT
The sentence you've provided has a minor grammatical error and an issue with word choice. Here's the corrected version:

"I watched the film with great enthusiasm!"

Corrections made:

1. "The" was corrected to "I" assuming you meant to refer to a person watching the film. If "the" was intended to refer to a specific group or individual, it should be clarified, e.g., "They watched the film..."
2. "many enthusiasm" is incorrect because "enthusiasm" is an uncountable noun, so we cannot use "many" with it. Instead, we use "great enthusiasm" to convey a high level of excitement or eagerness.
